

REMARKS

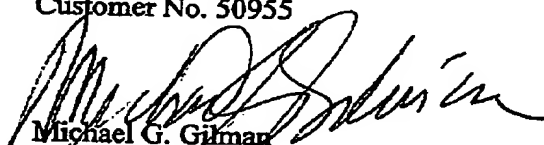

Reconsideration of the patentability of the above referenced patent application is solicited in view of the above amendments and the following comments. Applicants wish to thank the Examiner Salce for courtesies shown their representative during a recent telephone conference. The conference concerned the fact that the recent office action indicated that claims 30 and 32 were both allowed and rejected. Examiner Salce advised the undersigned attorney that the indication of allowability of claims 30 and 32 was a typographical error and that these claims continued to be rejected.

Claims 11 and 30-33 have been cancelled without prejudice to the filing of one or more division applications directed to their subject matter. Since these are the only rejected claims, this application is now in condition for allowance and such action is solicited.

In the event that the examiner does not consider this application to be in condition for allowance, he is requested to telephone the undersigned attorney to discuss what remains to be done to place this application in condition for allowance.

Respectfully submitted,
